Master Hair Stylist, Rare Haynes' mission is to empower her clients with the knowledge and tools to care for their natural hair, no matter the texture. Rare's primary focus is maintaining the structure and integrity of hair while utilizing techniques that eliminate excessive hair loss and heat damage. Rare's passion for hair developed at a young age after being frustrated with family members who didn't know how to manage their hair texture. She began making her own homemade concoctions to clean, moisturize and style hair. By high school, she became the "go-to" person for haircuts, haircare and braided do's. "No one knew how to care for hair; it was either the hot comb or the relaxer," she says. This observation sparked a newfound interest in chemistry and the science behind hair.

Attendees will receive a gift bag of Saphira products.
