

THE PRISM DIARIES

WITH LISH MAC

Save time with Lish's favorite sectioning techniques. Lish will demo her butterfly lightening technique on a natural balayage base color and a fully lightened model.

You will learn two sectioning methods that will map out your starting level and desired end result.

THESE TIME-SAVING TECHNIQUES WILL SHOW YOU:

- How to mix and match unique color combinations—deep dusty tones to rainbow bright neons and soft opalescent
- How to work with your canvas, not against it!
- Build your fashion color business
- How to consult and book the proper time needed

To register, visit trubeautyconcepts.com or call 1(888) 371-5040 x101
